SUMMARY

Aspiring full-stack developer with hands-on experience in building web, mobile, and desktop applications, as well as providing hardware and software troubleshooting and IT system maintenance. Skilled in developing responsive web applications using HTML, CSS, JavaScript, PHP, MySQL, React.js, Java, and C++, with practical experience using Android Studio, NetBeans, Eclipse, and Dev-C++ for application development. Possesses a strong foundation in user interface design, database-driven systems, debugging, and problem-solving, with a focus on creating functional and user-centered applications. Also experienced in technical support, Cisco Packet Tracer, Canva, Blender, and basic IT maintenance.

WORK EXPERIENCE

Part-Time IT Assistant – Local Government Unit (LGU) | 2025

- Provided basic IT support, including printing, scanning, and document processing.
- Designed posters and layouts using Canva.
- Performed basic hardware and software troubleshooting and minor repairs.

Staff / Assistant EMRO Computer Shop | 2019–Present

- Operated printing, scanning, photocopying, and laminating services.
- Designed simple posters, forms, and layouts using Canva.
- Assisted in selling and organizing office and school supplies.

OJT Intern – Toyota Albay

- Assisted with daily IT operations and technical support during OJT at Toyota Albay.
- Performed hardware and software troubleshooting, system setup, and maintenance.
- Resolved basic network, printer, and internet connectivity issues.
- Provided technical assistance for office computer systems and devices.

TECHNICAL SKILLS

Programming Languages:

HTML, CSS, JavaScript, PHP, MySQL, Java, C++

Development Tools / IDEs:

Android Studio, NetBeans, Eclipse, Dev-C++, VS Code, GitHub

Other Technical Tools:

Cisco Packet Tracer, Figma, Canva, Blender

Frameworks / Libraries:

React.js

Database:

MySQL, MongoDB, MS Access

Core Development Skills:

Web application development, mobile app development, desktop programming, responsive UI design, CRUD operations, login/authentication systems, database integration, debugging, software installation, hardware/software troubleshooting

ACADEMIC PROJECTS

BU Polangui Interactive Navigation System

Thesis / Capstone Project

Tech Stack: React.js, JavaScript, HTML, CSS, PHP, MySQL

- Developed a web-based system for campus navigation and information access.
- Built responsive user interfaces and database-driven features.
- Applied front-end and back-end integration to support practical user needs.

Student Management System Website

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed login and sign-up features.
- Implemented database-backed user authentication and management.
- Built a responsive web interface with dynamic system functionality.

Android Application Development Projects

Tools: Android Studio, Java

- Developed introductory Android applications during second year of college.
- Built app layouts, screen navigation, event handling, and basic mobile features.

Java and C++ Programming Exercises / Mini Projects

Tools: NetBeans, Eclipse, Dev-C++

- Created classroom exercises and small programming projects using Java and C++.
- Strengthened problem-solving, logic building, and object-oriented programming fundamentals.

EDUCATION

Bachelor of Science in Information Technology

Bicol University Polangui

Latin: Cum Laude

Honors: Dean’s Lister

2022 – 2026

Senior High School – Accountancy, Business, and Management

Libon Agro Industrial High School

With Honors

2020 – 2022

CERTIFICATIONS

- **Cyber Resilience: Understanding the Evolving Landscape of Data Leaks** DICT Webinar | 2024
- **AI Essentials: Unlocking the Power of Artificial Intelligence** DICT Webinar | 2024
- **Computer Hardware Servicing – Assemble, Repairing, Reformatting, Troubleshoot** Legacy Global Solutions (LGS) Training Seminar | 2020

I hereby certify that the above information is true and correct to the best of my knowledge.
